Town Hall

MINUTES

Present:

Board members: Ken Webster, Tom Pierce, Jesse Beall.
Staff: Anita Gonzalez.

The workshop was started at 10:00 a.m.

The Board met in a workshop setting to further examine the room in Town Hall in which the City's historic items have been stored and to begin sorting them. It was determined that the City computer had been repaired and is now functional. The supplies that had been requested by the Board at the last workshop had been ordered and were present for the Board to use. The members present set file cabinets in place and began the job of sorting materials into the file cabinets based on whether the items belonged to the City or to Jesse Beall. Those present sorted through boxes of materials and cleaned the room.

The workshop was adjourned at 12:00 p.m.

These minutes approved by the Historic Preservation Advisory Board on September 13th, 2004.
